Call For Citizen Scientists: Hemlock Woolly Adelgid Training

Do you enjoy the great outdoors and want to help protect it? Join the Roger Tory Peterson Institute in Jamestown on **Thursday, January 7th** at 6pm for a training session on the Hemlock Woolly Adelgid (HWA), an invasive insect that is threatening our local forests. Find out what damage this bug is causing, what is being done to combat this unwanted visitor and how you can get involved! Questions? Contact Elyse Henshaw, RTPI Conservation Technician, at ehenshaw@rtpi.org. Quit smoking – yes, I said it - Cigarettes are bad for your personal health and they are a huge source of litter - plus there is nothing eco-friendly about the pesticides, deforestation, paper use, and waste output of cigarette production. If you're ready to quit, replace the habit with exercise, or snacks of fresh organic veggies.

Get involved - there's a lot to be said for getting out of your house and focusing your energy on others-or on the environment. Volunteer in your community it will bring joy to your heart.

Don't forget – “Together we can make a difference.” lesleyhaynes14@yahoo.com
